Muse  
Abide in the Wind

Collapses

A large, dark dragon is shown breathing a powerful stream of fire from its mouth. The fire is intense, with bright orange and yellow flames engulfing several buildings in a city below. The sky is filled with smoke and fire, creating a sense of chaos and destruction.

Long ago, Dragons descended to this land

and began creating a world where life could flourish.

You need to start to fill with life

and bring beauty  
the stage at  
Dragon's Den/>

In the short time  
they lived, loved  
and prospered,

they worshipped  
The Dragons and  
placed them above

The Dragons, however, knew it was time.

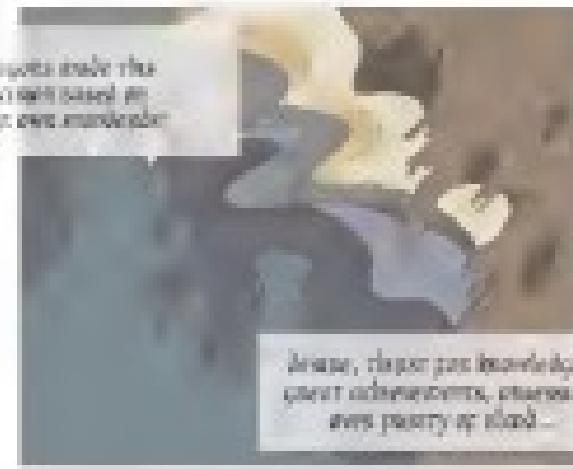

These dragon experts  
will to dominate the world

Intelligent beings capable of becoming 'Beavers', begin to arise.

They have  
to be born,

Beavers, but no  
as clever as Dragons  
in order for them to  
leave this world.

Dragons make their  
dragons based on  
their own knowledge

Knowledge, dragon power knowledge,  
great achievements, enormous  
ways poverty is dead.

Earth Dragon Maryah selected beings who opened  
up her with a certain light in their eyes

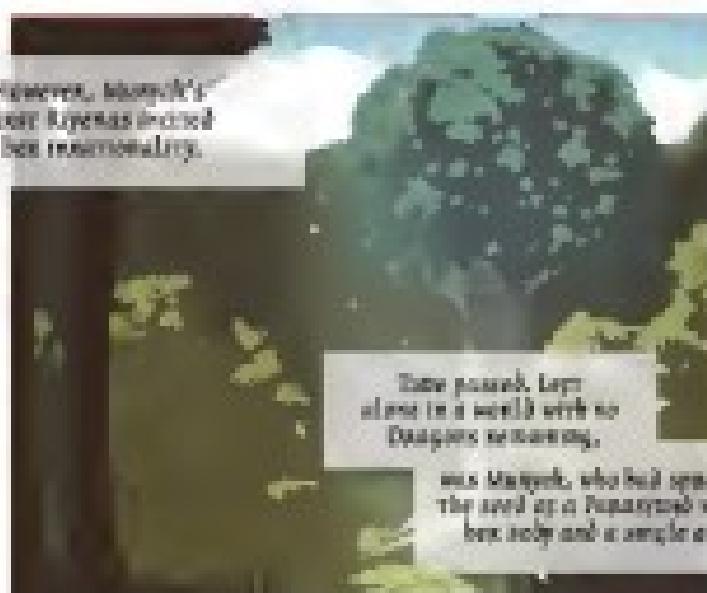

If it encompasses something,  
then couldn't be denoted  
in any language, being  
an absolutely illusive

Dragon has already  
crossed past humanity  
the universe,

It bore a greater  
power than anything  
else she could find.

so the Dragon  
selected his choice.

However, Moxy's  
first Rennes forced  
her reluctantly,

These passed, Lory  
alone in a world with no  
Dragons remaining,

and Moxy, who had spurned  
the seed of a Paganess with  
her help and a single egg.

In order to prevent the egg  
from the Paganess, she saved  
a session to her, sealed away  
her companion in the Labyrinth,

and left it once more.

And then—

When Pahel, the Queen  
was a young man,

he fell into the  
Labyrinth of Texas.

My vision is shaking.

My body can't move.

My neck feels so  
hot, like it's burning.

I wonder why  
Dyson created  
a weakness such  
as the Ravenous

and endanger  
themselves.

When one  
is infected,

both are infected

No, they couldn't even attempt to try 'that'.

They didn't even have a full grasp on what 'that' was,  
as they had never touched it before.

Waking up yesterday, now coming to today,

Well, I'll be putting
